EXPO REVESTIR: 18 YEARS OF BUSINESS, KNOWLEDGE AND INNOVATION

EXPO REVESTIR is consolidated as Latin America's most important finishing event and holds its vocation of connecting businesses, creativity, trends, new releases and inspirations.

The 18th EXPO REVESTIR takes place between March 10th and 13th 2020, at Transamerica Expo Center, in Sao Paulo, and brings so many innovations that the feeling is of celebration for the long journey travelled and many accomplishments. Over these past 18 years, the event has reached majority age with full capacity of exhibitors, and the expectancy of over 60 thousand highly qualified professionals during its four days of event, with a program created to meet different needs and interests.

Business Days: two days of Business and customized Networking

EXPO REVESTIR is the biggest business platform of the national and international market of Latin America. Therefore, the first two days of event (March 10th and 11th) were dedicated to business in its essence, through a customized service for those seeking strengthening commercial relations and expand the networking directly with the manufacturers, to negotiate and close contracts. The goal is to make the service customized and bring more comfort, attention and time necessary to do the best businesses.

Creative Days: a mix of contents and immersion on trends and innovation

Design, house customization through finishings and lots of avant-garde form the expectations for the 18th edition of EXPO REVESTIR. It is during the marathon of knowledge, focused on unique experiences, that the exhibitors will

present their collections and bets for 2020, when the topic is the perspectives of contemporary living. Therefore, March 12th and 13th are the dates recommended for those looking for an update on their knowledge with professionals that make trends take shape.

“It is with great pleasure that we present the Historic Edition that marks the 18 years of EXPO REVESTIR. The goal is to expand even more the business generation for the exhibitors, to present the trends and to offer even more knowledge to the professionals visiting that form the segment”, says Manfredo Gouvêa Jr, president of the The Brazilian Association of Ceramic Tiles Manufacturers, Sanitary Ware and Related Products (ANFACER), entity that promotes the event.

“At this event we present to the market the most important releases and novelties on the segments that form EXPO REVESTIR: ceramics, sanitary ware, metals for kitchen and bathroom, ornamental rocks, mosaics, wood, laminated floors, cement, glass, among others. This is the “start” for the business of the sector throughout the year!” says Mauricio Borges, CEO of ANFACER.

“It’s worth mentioning that it is highly relevant directing the public according to their specific interests. Thus, we want to optimize the valuable time of the visitors and stimulate business”, says André Soares, Executive Director of ANFACER.

Expectation in numbers

- 40 thousand m² of fair;
- Over 200 exhibitors of the sectors of sanitary ware, metals for kitchen and bathroom, ornamental rocks, laminated floors, wood, mosaics, cement, glass, machines, inputs and special solutions;
- Expecting over 60 thousand professionals, among architects, interior designers, retailers, constructors, resellers, engineers and national and international buyers;

INTERIOR DESIGNER DAY

March 12th 2020

Room of Origins
By Edward Van Vliet

Paulo Mancio

Brazil

3.15pm

One of the biggest hotel chains of the world, Accor has been reinventing themselves when it comes to construction, architecture and design of their projects and Paulo Mancio is the responsible for this change of behavior on the company.

For the past 17 years, he has been responsible for the project area of Accor in Brazil and for the technical development of the Group in Latin America. Civil Engineer with a MBA in Business Administration, he is the creator and curator of the Design & Technical Summit, considered one of the main events driven to the hotel business market, which highlights the efficiency in processes, sustainability, creativity and innovation.

Edward Van Vliet

Netherlands

3.35pm

Edward Van Vliet is one of the most celebrated designers of today because of his versatile characteristic of moving in a pure and original way around the different aspects of the creative world. Interior and product designer, Van Vliet was the great highlight of the International fair o grande destaque no Milan Furniture Fair 2019, when signing collections for Moroso right next to stars like Ron Arad.

Multifaceted, Van Vliet has created lines of perfume bottles, sofas, chairs and lamps, among so many other inventions of his huge portfolio for brands like Moroso, Baccarat, Bisazza, L'Oreal, Moooi, among others. The backbone of his work, however, is to connect identity, concepts and atmospheres, either for those enjoying his environments momentarily, which is the case of hotels and companies, or even for houses and apartments filled with coziness and spreaded all over the world.

ARCHITECT DAY

Women and Architects: Professional Performance x Aspects of Women in Society

March 13th 2020
2pm

Celebrating the 18 years of the International Forum of Architecture and Construction of EXPO REVESTIR, under the curatorship of Fernando Mungoli and Evelise Grunow, from PROJETO magazine, we brought together a group of renowned women architects, with different points of view on architecture, overlaying their work with the theme of female professional performance.

The program expects the participation of two foreigner professionals: Maki Onishi (Japan) and Sol Camacho (Mexico), this last also working in Brazil, and four Brazilian presentations, with Marta Moreira (MMBB), Carol Bueno (Triptyque), Lua Nitsche (Nitsche Arquitetos) and Mila Strauss (MMBB).

Following the presentations, there will be a debate about the Professional Performance x Aspects of Women in Society, with the special participation of architect and urbanist Elisabete França.

JOINT EVENTS

The FIAC is one of the great events that happen parallelly to Expo Revestir, however we have also an simultaneous program buzzing the four days of event. Talks, exhibitions and installations that make Latin America's biggest covering event a mandatory circuit for all that are part of the construction productive chain. Check it out!

BEST IN SHOW - CERAMICS OF BRAZIL - 6th EDITION WILL TAKE PLACE DURING EXPO REVESTIR

The Best in Show Award reaches its sixth edition in 2020. Created by the Brazilian Association of Manufacturers of Ceramic Tiles, Sanitary Ware and Related Products (ANFACER), the award selects the best products associated to the entity and released during the 18th EXPO REVESTIR. The curatorship of the award is done by journalist and design critic Marcelo Lima, who elects the finalist products and important names of design and architecture for the jury responsible for choosing the winners.

EXPO REVESTIR IS THE BEST MOMENT TO LAUNCH GREAT PROJECTS: PQCERAMICA.COM

ANFACER is pleased to present during the 18th edition of the event, the Pq Cerâmica. It is a program that praise and value all qualities of this covering that has become a national passion and is present on the life of virtually all Brazilians. The goal is to present all the versatility of this product, as well as the advantages of investing in ceramic, either for its easy maintenance or the aesthetic appeal, the resistance and also because it's the covering most adequate to the Brazilian climate.

CERAMIC AND PORCELAIN TILES

ALFAGRÊS PRESENTING NEW FLOOR TILES

- Estande: 1417
- exporevestir.com.br/alfagres/2020/
- Foto: Piso Cottage

The Cottage floor tile is a clear wood sized 15 x 60 cm with a soft relief and matte texture. With a sober and urban proposal, it can be used alone in cozy environments or along with other materials such as concrete, marble and stones. The brand also brings the Naxos White floor tile, sized 56 x 56 cm. On a white color of intense shine, it offers a surface for creative works. Another novelty is the Calcis Black covering, sized 31 x 60 cm, which uses delicate designs of marble matching traditional and also urban products. Calcis Black with its white and black color means freedom to be applied all over the house.

ATLAS CERAMICS BRINGS NEW SHAPES OF PORCELAIN TILES WITH A RETRO LOOK

- Estande: 1865
- exporevestir.com.br/atlas/2020/

The 20cm x 20cm sized pieces join new technologies with a artisanal look. The square cover is very versatile, allowing an infinity of creative compositions. The launch is presented in 10 shades: Liquen, Dil, Náutico, Calla, Malva, Cosmo, Nero, Murta, Camélia and Marfim.

Wandering from vibrating colors to candy colors, Atlas Ceramics flirts with the retro style, that is established as a trend on decoration.

COLORS AND FORMATS SET THE TREND FOR THE 2020 COLLECTION BY CERÂMICA ELIZABETH

- Estande: 219
- Exporevestir.com.br/ceramica-elizabeth/2020/
- Foto: Maxiarco

The capsule collection Maximarmmi HD Polished 62,5cmx125cm is inspired by a rare Spanish blue marble. The three product lines (Maxiarco, Maxiblu and Maxisilver) summarizes the trends of color, in polished porcelain tiles of large formats and rounded. The Dorato HD Polished 62,5cmx125cm brings the combination of black with golden veins of the commerces of Venice. Lively colors, marine tones mark the glass tile lines Ilhas Gregas and Prisma, both on the new size 7cmx26cm, ideal for covering pools, external areas and even walls.

CEUSA: 33 COVERINGS WITH HIGHER LEVEL OF PERSONIFICATION

- Estande: 229
- exporevestir.com.br/ceusa/2020/
- Foto: Nór (80 x 80 cm e 100 x 100 cm)

The timeless beauty of marble inspired Ceusa to the Escala, its new collection with the concept of "Cada Casa É Um Caso" ("Each Home Is A Different Case"). The line has four principles. Super Casada: offers two formats of the same product to facilitate the adequation to different environment sizes. Super Versátil: the same product and two options of textures that provide harmony between the spaces. Super Combinável: the designs on the marble matching different other products of the brand. And Super Precisa: grants the repeatability of one batch to the other, without difference of shades or sizes.

DAMME IS BETTING ON SENSORY FINISHING

- Estande: 2036C
- exporevestir.com.br/damme-porcelanato/2020/
- Foto: Herbarium 60 x 120 cm

Versatile and timeless, the new porcelain tiles by Damme are inspired by the nature, as the line that brings the Biophilia concept, which proposes to promote the well being on internal environments. Another striking point of the lines are the metallic effects, with delicate shine on the pieces that bring sophistication and movement. The sensory experiences are inspired by the crystals. Also, collections that reproduce wood, marble, corten steel, cement and geometric elements get new models. The brand also bet on marble effects on size 120cm X 120cm.

DELTA PORCELANATO: LARGE FORMAT MODELS

- Estande: 617 / 711
- exporevestir.com.br/delta-ceramica/2020/
- Foto: Nevado

Following the global release trends, Delta Porcelanato launches three new models of large format 50x100. Eramosa Black is a reproduction of Eramosa Marble, only found in Canada, which offers different applications on the floor and walls. The exotic Macaúbas Azul is inspired by the Brazilian beauties and stands out by its shades that range from light blue to grey. Finally, in intense grey shades with golden touches, Nevado is the most wanted Calacatta Gold Extra Marble.

DUEFRATELLI RELEASES LINE INSPIRED ON NADI ISLAND

- Estande: 1870C
- exporevestir.com.br/duefratelli-ceramica/2020/
- Foto: Nadi Dark

Part of the Fiji archipelago, Nadi Island – or Nandi, as it is pronounced by the native population - was the inspiration of Duefratelli to this line of floor tiles. The format is 20 x 20 cm and is available in eight colors: Ashen, Beige, Bay, Dark, Gray, Lake, Right and Rust, which represent the water, light sand and the rocks of the environment.

ELIANE REVESTIMENTOS PRESENTS FOSSILE

- Estande: 2411
- exporevestir.com.br/eliane/2020/
- Foto: Fossile

Merging the aesthetics of petrified wood to the classicism of the white marble, Fossile is a ceramic surface that accurately portrays the nuances and patterns extracted from the petrified material. Indicated to be applied on internal and external environments, to be used on the floor, walls, bathrooms and countertop in general, the release features nine different models, on the polished (PO) and satin (AC) finishing, on sizes 90 x 90 cm and 60 x 120 cm.

GABRIELLA REVESTIMENTOS CERÂMICOS: LAUNCHING LINES OF COVERING KITS

- Estande: 2520
- exporevestir.com.br/gabriella-revestimentos-ceramicos/2020/
- Foto 1: Kit Café
- Foto 2: Sense Design – Raynan Wood BW

On size 20 x 20 cm, the Café line was created to honor the culture of this product beloved all over the world. It is composed for 12 pieces in each box and it offers rich details on the application. Also new, the release of Sense Design, a new ceramic brand that brings rich details and unique reliefs.

GRUPO ALMEIDA LAUNCHES BRAND FOCUSED IN PORCELAIN TILES

- Estande: 1519 / 1537
- Exporevestir.com.br/grupo-almeida/2020/
- Foto: Soho

Always seeking innovation and moved by the passion for offering the best in floor tiles and covering, the Almeida Group presents its new brand Gaudi Porcelain Tile, bringing a complete line of porcelain tiles of unique beauty, inspired and developed as a soul and emotion of an artist, transmitting the legacy of connecting style and influencing the sensibility of those who create the environment. One of the highlights is the Calacata Oro covering, that combines all the beauty of the classic marble to the high technology of the porcelain tile.

INCEFRA RELEASES THE IN OUT SELECT LINE WITH 26 MODELS

- Estande: 1336A
- exporevestir.com.br/incefra/2020/

The new line will bring porcelain tiles with perfect fit, design and reliefs inspired by the culture and architecture of different countries, with essence and sustainability. There are 26 models developed that take modernity and consistency to the environments. Not only the design is a differential but also the size 35x60 cm, with easy handling, application and intense and deep reliefs. The parts have up to 5 different faces.

INCENOR BRINGS COVERINGS WITH PERFECT FIT AND EXCLUSIVE SIZE

- Estande: 1336B
- exporevestir.com.br/incenor/2020/

With a 3D effect, the Encaixa Line by Incenor is ideal to decorate walls of internal and external areas. Measuring 35x59 cm, the piece can be laid both continuous and linear, adding value to the decor. The minimum joint of 1,5 mm also makes it softer and naturalizes the space with the perfect fit. The line is composed of 34 products providing a variety of textures.

INCEPA - COVERING FOR POOLS AND ABS TECHNOLOGY

- Estande: 2640 / 2835
- Exporevestir.com.br/incepa/2020/
- Foto: Oceanic Star Sky Blue 20 x 20 cm

Incepa presents lines to cover pools and its surroundings, making the work easier. For wet areas, the Oceanic line explores the blue of the sky reflected on the sea, with nuances that refer to the movement of the water. The stars inspire the tactile relief. As it is rectified, it allows a uniform finishing and features the ABS technology, which is anti-slippery. This line of anti-slippery porcelain tiles evokes the wood, as the Álamo line. The Quartzita line reproduces the aesthetic of the stone with its diversity of designs and colors. It can be applied with minimum joint of 1mm.

PORTINARI RELEASES COLLECTION INSPIRED BY A GEOGRAPHIC PHENOMENON

- Estande: 1437
- Exporevestir.com.br/portinari/2020/
- Foto: Geographic OFW HARD

The Geographic collection was created from a peculiar geographic phenomenon. Its origin is on the connection of the Slate and the Cardoso, two rocks extracted from different sides of the same mountain range. Its highlight is due to the movement of the design and the white veins on the pieces. The collection features two accessories: delicate pieces shaped as a Chevron and small slats. The products are meshed to make application easier on contemporary and unique environments.

PORTOBELLO RELEASING THE 2020 COLLECTION SIGNED BY JEWELRY DESIGNER ANTONIO BERNARDO

- Estande: 1850
- exporevestir.com.br/portobello/2020/
- Foto: Painei Atmosfera Ovni white

With exclusive panels of delicate reliefs, the Atmosfera line brings the perspective of the designer and recreates the limit between flat surface and space, between the jewelry and art. It is formed by three sophisticated panels that combine porcelain and metal and five monoporous reliefs. Precise cuts of water jet and overlaying of porcelain and stainless steel create charming reliefs. The steel was treated to have a mat finishing, a signature of the designer. The panels are available on models Eclipse, Ovni and Lua. The collection also brings the monoporous reliefs Aura, Espaço, Tempo, Ar and Espectro, more democratic options, sized 30x30 cm and 30x90 cm.

ROCA CERÂMICA IS BETTING ON THE GIANT SIZED TILES

- Estande: 2620 / 2825
- exporevestir.com.br/roca/2020/
- Foto: Allure

The timeless beauty of the Onyx Marble, with all its nuances and designs, is present on the Allure line. The highlights of this series of tiles are the innovative sizes with surface finishing. The large plates of 100 x 200 cm offer an even application that considerably reduce the perception of joints on the environments. The finishing on the Soft Touch versions, that bring the silky touch to the surfaces, and the traditional polished finish that make the porcelain tile a practical and affordable option for environment of different styles.

COVERINGS WITH NATURAL LOOK IS ON WHAT SAVANE IS BETTING

- Estande: 1667
- exporevestir.com.br/savane/2020/
- Foto: Elegance Soft

The brand presents a new line of coverings on the Gres category, large formats, reliefs and differentiated designs. One of the highlights is the Soft covering, from Elegance Collection, that, due to the HD technology, offers a ceramic with the appearance of Marble. The minimum joint is 2 mm, sized 38 x 74 cm, granting a clean and sustainable laying. It is a solution for wet areas and indicated to internal walls and with low level of absorption.

SOFISTIQ DIGITAL DESIGN PRESENTS THE ARCH COLLECTION AND THE START LINE AT EXPO REVESTIR

- Estande: 2567
- exporevestir.com.br/sofistiq-azulejos-decorativos/2020/
- Foto: Amaro – Cinza

Sofistiq Digital Design brings to Brazil an innovative method of printing that grants you the power of transforming your environments into unique and unforgettable places, as you wish. The Arch & Design collection and its multiple lines and colors is ideal to value the residential, commercial and corporate environments. The Start Line, by Sidnei Machado, presents the Tapestry Collection and the Saline Collection. The Start Line, by Karen Camilotti, presents the Aquarela and Amaro Collections.

THE NOBLE PORCELAIN TILE WITH GOLDEN- YELLOW BY VILLAGRES

- Estande: 1552
- exporevestir.com.br/villagres/2020/
- Foto: Calacatta Borghini

An Italian marble of the Calacatta type, extracted in Tuscan, on the Apuan Alps and a distinctive and memorable design of the veins that range from shades of grey and golden-yellow, is reproduced with extreme definition and realism. It is polished and rectified and brings clear magnificence to the product sized 80x140 cm. There is also the option of the concept of spreading where four faces fit together forming a 160x280 cm layout. The Calacatta marble was very used on the Renaissance period on luxury furniture and objects. Its elegant language adapts to every context.

STONES

ALICANTE PRESENTS NEW RELEASES ON THE CLASSTONE AND FUSION COLLECTIONS

- Estande: 438
- exporevestir.com.br/alicante/2020/
- Foto: Mar del plata

The Calacatta model, by Classtone Collection, is inspired by the Carrara plates, with a design that offers different effects on the presentation when the plates are assembled in a row. The Mont Blanc model, also by Classtone Collection, is inspired by the French Alps and is characterized by a neutral tone that matches a white background, crossed by sutil black, ochre and rust-coloured veins. By Fusion Collection, the brand brings the Mar Del Plata, inspired by the Dark Pearl granite, that merge quartz stripes over a grey background; and New York New York, in grey tones, bringing urban style to the applications.

DECOLORES RELEASES NEW BRAND: LUSSO

- Estande: 1879
- exporevestir.com.br/exporevestir.com.br/decolores-marmores-e-granitos-do-brasil/2020/

The new brand 'Lusso – Quartzite Collection by Decolores' represents a modern, young and elegant line of 100% natural coverings, of noble quartzite - exclusivity of the company, that has been conquering the architecture and design projects of high standard, not only in Brazil but all over the world. The collection brings 10 types of materials: Bronzite, Mont Blanc, Lucent, Sky Gold, Meridian, Bronzite Vintage, Leblon, Bianco Laura, Atlantis and Ijen Blue.

DIAMOND STONE KEEPS BETTING ON THE FUTURE OF SURFACES

- Estande: 634
- exporevestir.com.br/diamond-stone/2020/
- Foto: Orobico Grigio – Cuba esculpida

The Ultracompact line gets new colors with the Ultracompact Essence collection, that has 14 new products, all featuring the Soft Touch(satin) and Lucidato (polished) finishing. There are seven new colors inspired by the classic marbles, those that were rare and used by the royalty. They are: Marmorino Oro, Nero Marquina, Breccia Beige, Onice Avório, Arabescato Oro, Orobico Grigio and Travertino Grigio.

GRESPANIA BRINGS COVERLAM

- Estande: 1575
- exporevestir.com.br/grespania/2020/
- Foto: Coverlam

For its first time at Expo Revestir, the Spanish company Grespania presents the Coverlam, a synthetic material, that offers a large range of formats and thicknesses. Produced with totally natural raw material, the concept brings a new skin to architecture. The sizes range from the slatted wood to the plates of 1,62 x 3,24. The thicknesses from 3,5mm, 5,6mm, 10,5mm to 12mm. The release is indicated, also, for places of high traffic.

MAMERI ROCHAS: SOPHISTICATED AND EXCLUSIVE NATURAL STONES

- Estande: 1339
- exporevestir.com.br/mameri-rochas/2020/
- Foto: Bianco Miramare

Bianco Miramare and Kristallo Diamanto are the releases of Mameri Rochas. The exclusive Bianco Miramare lights up and expand the environments. The novelty on this version is that it offers the opportunity for Architecture and Design professionals to develop an exclusive tone to the composition of their projects. The Kristallo Diamanto stone is very translucent, offering finishing and delicate decoration. It can be used in classical or modern environments.

PALIMANAN LAUNCHES A NEW LINE OF BOSSA NOVA BRICKS

- Estande: 1230
- exporevestir.com.br/palimanan-revestimentos-naturais/2020/
- Foto: Nara

Inspired by the Brazilian rhythm, the brand launches a line of bricks celebrating four of the most iconic artists of Bossa Nova: Elis, Nara, Tom and Vinícius. The line, which uses recycled material from building sites, additives and dye in its production, is part of the Eco Responsible action by Palimanan.

PR GRUPO PARANÁ BRINGS THEIR EXCLUSIVE MARBLES

- Estande: 1268
- exporevestir.com.br/pr-grupo-parana/2020/
- Foto: Chapa MachiaOro

There are three options of natural rocks of national origin and an exclusive brand of the Group. The Macchia Oro PR Marble has as characteristic the white background and golden veins. The Monte Cristo PR Marble is a more clean material, with the white color prevailing and low movement. The Granito Café Imperial PR is predominant brown with small almonds. Apart from these options, the Group also presents the Pietrafina, a technology that consists in an exclusive cutting process that allows getting natural rocks with up to 5mm thick, reducing the weight of the stones up to 70% and increasing its resistance to impacts.

FOUR RELEASES BY SENHOR DAS PEDRAS

- Estande: 1475
- exporevestir.com.br/senhor-das-pedras/2020/
- Foto: Luna

Pools, walls and floors are the contemplated areas with the releases by Senhor das Pedras. The Atérmica Premium line, floor tiles with athermal features, can also found with borders and in different colors. The Retrô line is made with cement with details that look like small natural stones applied one by one; it can be used on floors or walls. At last, the Boomer line is composed of pieces that evoke the design of a boomerang, which brings the sensation of movement and lightness.

WOOD AND ACCESSORIES

BERNECK: COLLECTION INSPIRED BY THE URBAN AND SUSTAINABLE

- Estande: 800
- exporevestir.com.br/berneck-paineis-e-serrados/2020

Making its debut on EXPO REVESTIR, the Brazilian Berneck releases the Nômade Collection 2020/21 of MDF, MDP and HDF coated panels. Motivated by people who follow a lifestyle of global and urban aesthetic, but sustainable, the Collection combines natural colors, fine wood and reproduction of stones, increasing the possibilities of the professionals of the sector.

ECLISSE LAUNCHES THE ERGON LIVING

- Estande: 2340
- exporevestir.com.br/eclisse-brasil/2020/
- Foto: Porta Ergon

To reduce the obstacles and gain more space is the concept of Ergon Living, roto-translation door released by Eclisse for 2020. It offers a gain of 50% of the space that a rotating door occupies, that is, the innovative movement of the roto-translation allows the door to use half of the space when its opened. The novelty brings new perspectives to the decorations of small environments.

CLICK SYSTEM IS THE RELEASE OF THE EUCAFLOOR PRIME LINE

- Estande: 1257
- exporevestir.com.br/eucafloor/2020/
- Foto: Carvalho Maiorca

Eucafloor presents the new installation system Click also on the Prime line, which becomes the only one on the market available on both installation systems: glue or fitting.

The other novelty is the new patterns Noce Oro and Lâmina Amêndoa, exclusive for glue installation, which add to the patterns Carvalho, Ipê Real and Capuccino. The Fresno Decapê, Carvalho Maiorca, Valência, Nova Acácia and Nogueira Natural patterns are available for choosing on both systems.

NATIVA LINE BY FINOTTATO BRINGS THE NATURE SENSATION INSIDE YOUR HOME

- Estande: 1340
- exporevestir.com.br/finottato/2020/

The natural and fundamental permeate the entire concept of the Finottato 2020 releases. A good example are the 4 new lines of board flooring: Vital, Elementar, Nativa and Imponente, developed to help architects and designers to bring sensations of nature inside. The NATIVA line, with the SPC technology, offers more durability and resistance of the vinyl flooring because it has natural composite on its structure.

MADEIRAS ECOLÓGICAS PRESENTS VERSATILE AND SUSTAINABLE PRODUCTS

- Estande: 350
- exporevestir.com.br/madeiras-ecologicas/2020/
- Foto: Edifício Aruá, projeto da FGMF

Member of the Italian group Geofin, Madeiras Ecológicas combines technology, sustainability and constant innovation. The WPC (Wood Plastic Composite) contain 65% of natural wood and 35% of polyethylene and additives – brings quality, durability and low maintenance to the consumer, combined with a splendid natural look. Another highlight of the product is regarding the environment: it is 100% recyclable, its composition allows the material to be recycled.

OTHER COVERINGS

THE HYDRAULIC TILES AND COVERINGS BY ADAMÁ

- Estande: 1820
- exporevestir.com.br/adama/2020/
- Foto: Ladrilho Hidraulico Selva

With artisanal production, authentic design and inspired by the culture, attitude and nature of Brazil, the brand presents extra thin hydraulic tiles and lighter and modern coverings for external areas. The hydraulic tiles (20cm x 20cm) are signed by the architect Edan Shoher and can be installed on walls and floor. The pieces honor the Brazilian nature and culture: Amazonas, Delirio, Iemanjá, Samba, Selva and Urbano.

ARAFORROS RELEASES LINE INSPIRED BY WOOD AND CEMENT

- Estande: 416

Combining design, style and personality, Araforros releases exclusive products that offer more beauty and feeling of well being for environments with the Vinyl Covering for Ceiling Line. Developed for the segment of architecture and high standard works, the PLUS line features collections inspired by the sophistication of wood and robustness of cement. The Vinyl Ceiling line of the company brings to the market products that express naturality on the images portrayed, unique graphics and singular texture.

ARMSTRONG WORLD INDUSTRIES HAS THE ACOUSTIC SOLUTION FOR DIFFERENT ENVIRONMENTS

- Estande: 500
- exporevestir.com.br/armstrong-ceilings/2020/

The Armstrong World Industries, Inc. (AWI) is leader in acoustic solutions, lining and covering of walls for commercial and residential use. At home, at work, hospitals, classrooms, stores or restaurants, the company offers acoustic solutions that help on the comfort, time saving, improving the efficiency of the construction and overall performance, creating beautiful spaces. The company develops sustainable solutions, with design and acoustic performance that makes a positive difference on the spaces where people live, work and learn.

VINYL FLOORING BY ARQUITECH

- Estande: 1565
- exporevestir.com.br/arquitech-rodapes/2020/
- Foto: piso vinílico

The Magnifique line of vinyl flooring offers acoustic and thermal comfort, it's resistant to scratches and it is easy to clean. Besides, has unique beauty with different color options. There is a fundamental relation between the quality of a product and the brand behind it, therefore Arquitech invests on this relation, keeping a perfectionist posture in everything they do. The Magnifique line is a floor cover that brings refinement, comfort and beauty to the environments where it is applied.

BELAMARI RELEASES NEW COLORS OF GLASS TILES INSPIRED BY BRAZILIAN BEACHES

- Estande: 517
- exporevestir.com.br/belamari/2020/

The three new glass tiles are part of the Domus Line, for internal and external environments, especially pools. The pieces are exclusive and have colors inspired by the beaches all around Brazilian coast: Bonete, Verde Maragogi and Branco Atalia. Although the tones are ideal for the pool area, the use is not exclusive, since the colors are also assertive on internal environments such as kitchens and bathroom.

BELGOTEX: PRIVACY WITH ELEGANCE

- Estande: 959
- exporevestir.com.br/belgotex-do-brasil/2020/
- Foto: Stonefloor Concrete e Agregatta Brecia

Belgotex do Brasil presents two special coverings: the state-of-the-art self supporting vinyl flooring Hercules Square and the decorating concrete Stonefloor. Modern and highly resistant, Hercules Square is ideal for raised floor systems because it is made of fiberglass which grants more dimensional stability. The Stonefloor was inspired by the intense beauty of concrete. It was designed on the size 30,5cm x 61cm and offers versatility to the minimalist architecture.

RELEASES BY CASTELATTO MARKED BY COLOR AND VERSATILITY

- Estande: 534
- exporevestir.com.br/castelatto/2020/
- Foto: Linha Polygon

The Polygon line, composed by hexagonal small pieces and one of the flagship products of the brand, comes with full steam ahead and presents the versatility of the architectonic concrete of Castelatto in 10 new colors: Lead, Grey, Fendi, Sand, White, Blue, Coral, Pink, Black and Green. The line can be applied on internal and external environments and, even if exposed to the weather, will not lose its shade. Thanks to the possibility of rotation of the pieces (17,3 x 15 x 3,5 cm) when layed, it is possible to reproduce different effects that, with proper lighting, make the projects more bold and surprising.

INTERFLOOR: PVC FLOORING WITH GRANILITE FINIS

- Estande: 1212
- exporevestir.com.br/interfloor-pisos-e-revestimentos-de-pvc/2020/
- Foto: Bianco; Nero.

As a result of a series of investments on global trend researches and manufacturing technology, the new finishing brings a reinterpretation of the natural texture of the granite. The finishing Bianco, Nero and Asoluto are indicated both for small, medium or high traffic environments. They are produced through a process of lamination in PVC layers, preserving its technical and visual characteristics for much longer.

LEPRI PRESENTS COLLECTIONS INSPIRED BY THE SOIL

- Estande: 1638
- exporevestir.com.br/lepri/2020/
- Foto: Terrazzo Torino 7 x 23 cm

The soil offers life. Constant creativity, movement and experience. It is transforming. A natural palette referring to coziness. The natural invading the projects. Lepri presents the Terrazzo and Tradizionale collections. The first is the brick Terrazzo Torino, with a grey background and black rocks mixed on its composition, referring to granilite, a type of covering once very used in Brazil on the decades of 1940 and 1950 and which is back as a trend over the past years. The second, Tradizionale, brings small stripes added to the floor tile and also to the little bricks, offering a perfect mix of retro and contemporary, the colors as a basic spice for the decor with personality.

LURCA CREATES A COLLECTION INSPIRED BY THE ATLANTIC FOREST

- Estande: 630
- exporevestir.com.br/lurca-azulejos/2020/
- Foto: Caeté

The new ceramic tile collection by Lurca, the Mata Collection, was inspired by the great flora diversity of Atlantic Forest, with exuberance of colors and shapes. There are eight new models: Hibisco, Alpinia, Hera, Caeté, Broto, Taiá, Léia and Sagu. The tiles are screen-printed and burned on 940 degrees, resulting on durable pieces of low maintenance. The size of the pieces is 15,4 x1 5,4cm each.

PIERINI IS INSPIRED BY THE BRAZILIAN BEACHES

- Estande: 1870
- exporevestir.com.br/pierini-revestimentos/2020/
- Foto: Azul Piscina 15 x 15

Guarda, Jeri, Joaquina, Maragogi and Noronha were the inspirations of the brand for its new line of pool coverings with special colors. Available on size 20 x 20 cm. Also, the brand is also presenting novelties for pools and wet areas on size 15 x 15 cm, on colors Branco Brilho, Branco Acetinado, Azul Piscina and Azul Cobalto.

RUFFINO ACABAMENTOS RELEASES THE CEMENTO LINE

- Estande: 963
- exporevestir.com.br/ruffino-acabamentos/2020/
- Foto: Linha Bravo - Titânio

The main release of Ruffino Acabamentos is the Cimento line on the collections Sofisticato and Bravo, for residential environments (45 x 45cm) and commercial environments (90 x 90cm), respectively. The collection for residential environments is dedicated to the public that seeks a product of good cost benefit for smaller spaces, such as studios and boutique apartments. For commercial environments of medium and high traffic, the plates are made with fiberglass, which grants more dimensional stability and significantly reduces the retraction and dilatation of it.

STRAIGHT AND CURVY LINES, SIMPLICITY AND BOLDNESS ON THE 2020 RELEASES BY SOLARIUM REVESTIMENTOS

- Estande: 1950
- exporevestir.com.br/solarium-revestimentos/2020/
- Foto: Braille, Arthur Casas.

The 2020 collection that Solarium Revestimentos presents at Expo Revestir brings signatures of three renowned architects: Arthur Casas, Rodrigo Ohtake and Vivian Coser. They combine their talents to the traditional brand of the industry of floor tiles and cement coverings of the country. Aside from the pieces conceived by the designers, Solarium also brings a floor tiles line of their own creation. This year also marks the change of location of the Solarium booth at the Fair, that is now number 1950, street 19, on the same pavilion C in which has been on all other editions.

THE NEW CONCEPT OF CERÂMICA STRUFALDI

- Estande: 316
- exporevestir.com.br/strufaldi-revestimentos-ceramicos/2020/
- Foto: Palau

The new product line developed for pools, external and leisure areas features coverings on the sizes 10 x 10 cm (mesh with 12 pieces plates) and 20 x 20 cm (single piece). One of the highlights are the Samoa and Palau, inspired by the volcanic stone Hijau. With green and bluish tones, it is recommended to be used on environments and pools with external lighting. Another novelty is the São Tomé cover on size 20 x 20 cm, produced with ceramic with the high definition digital printing system and indicated for the surroundings of pools.

AMBIENTA® MAKE IT, THE NEW LINE BY TARKETT

- Estande: 1055
- exporevestir.com.br/tarkett/2020/
- Foto: Ambienta Make It - Dark Purple; Moss Green; Light Grey

Inspired by contemporary art, the new line merge geometric shapes and a vibrant palette of colors, that bring a new concept to the projects. Aside from the classic square and rectangle shaped options, the line presents the triangle and trapezium shapes for walls and floor tiles. All plates and boards are available in eight colors. The line also brings to the environment the features of vinyl flooring, such as quick and clean installation, even over other kinds of covering.

SANITARY WARE, METAL AND ACCESSORIES

ASTRA INCREASES ITS CONCEPT LINE WITH THE BAMBOO SINK

- Estande: 2803A
- exporevestir.com.br/astra-sa-industria/2020/
- Foto: Cuba de bambu

Following the arqdecor trend of using natural materials, Astra releases the sink that is made out of Bamboo. The piece has a design that mix, harmoniously, straight and curved lines, resulting on a more fluid canoe shape. The finishing has a differentiated shine and soft touch. It is 41cm length and width, 13cm height and weights 4,20kg.

CELITE LAUNCHING PIECES THAT COMBINE DESIGN AND TECHNOLOGY

- Estande: 2800
- exporevestir.com.br/celite/2020/
- Foto: Torneira Basic; Bacia Azalea

On the toilet segment, Celite releases the Saveiro Toilet with horizontal output, that avoids the pipe going under it, making it possible to create or redoing a bathroom without bothering the neighbours, and the Suspended Azalea Toilet, that can be installed on a brick wall and drywall. On the metals segment, the brand presents collections as the Flow and increases the lines Basic and Acesso.

DEBACCO LAUNCHES THE APPLIANCE LINE AND KITCHEN SOLUTIONS

- Estande: 2531
- exporevestir.com.br/debacco/2020/
- Foto: Forno elétrico

The “high-end” appliance line offers a complete solution for the kitchen, composed by suction hood, cooktop, oven, combined oven and microwave. The suction hoods, with brushed stainless steel finish, are available for the wall and island kitchen, and with different sized lamps. The cooktops are of 4 or 5 gas burners and domino (1 burner); the finishing is in stainless steel and features Sabaf burners. The ovens (electric and combi microwave), offer a variety of functions and sizes (liters), and adapt to the different sizes of kitchens and many needs.

DECA RELEASES NEW TWIN CLICK FILTER

- Estande: 313 / 331
- exporevestir.com.br/deca/2020/
- Foto: filtro Twin Click

The Twin that everyone knows just got a longer spout, making it more compatible with bigger sinks, and with a more practical trigger of the filter with a click button. The product has the filter element with Carbon Block technology, which is inside the “body” of the metal, saving space under the countertop (granting more storage space) and allowing a quick and easy replacement, when needed. The novelty will be marketed with the following finishes: Chromed, Black Matte, Red Gold.

DOCOL RELEASES THE DOCOLPRONTO FITTINGS

- Estande: 2429 / 2432
- exporevestir.com.br/docol/2020/
- Foto: Misturador Monocomando para Cozinha DocolPronto

With a single tap offering 6 types of water with the simple touch, the DocolPronto fittings is unprecedented on the Brazilian market. Not only does it offer the 3 types of water (warm, cold and mixed), the fitting also offers three types of purified water: cold (30C), sparkling cold and super hot (98oC). Thus, in a few seconds, it is possible to make tea, coffee, a beverage or natural soda. Installed under the countertop, this automatic system is safe and of easy maintenance, leaving the countertop free and allowing more freedom for the projects of the contemporary kitchens.

DOKA LAUNCHING METAL COLLECTION IN 5 COLORS AND THE NEW GENERATION OF TUBS

- Estande: 2622
- exporevestir.com.br/doka-bath-work/2020/
- Foto: coleção Rainbow Rose Gold

The brand is bringing its new collection of metals Rainbow, composed by straight and soft lines and the new generation of the Air Massage tubs. With unique and constant design, the pieces of the Rainbow line have the same model in 5 options of colors on the metals (GunMetal, Rose Gold, Matt Black, Gold and Chrome), allowing the creation of exclusive and customized spaces. The Air Massage tubs were redesigned seeking improvements without losing any functionality and technology. At the booth, the three world-renowned tubs will be on display: Victoria + Albert: Amalfi, Barcelona (on the new color GunMetal) and the Victorian Cheshire.

HYDRA RELEASES THE PURAVITTA LINE

- Estande: 313 / 331
- exporevestir.com.br/deca/2020/
- Foto: Torneira Eletrônica com Purificador

Hydra is releasing at Expo Revestir the purifiers of the Puravitta line, that offer more healthy water since they remove over 75% of the chlorine, and also remove waste such as sand, mud, mold and rust, keeping the necessary fluorine, as well as the mineral salts. The line, on the complete version, offers customized temperature, even when it's on, enabling the visualization of the temperature variation through the digital colored LED present on the base of the spout, indicating from hot water (red light) to cold water (green light).

ICASA: MAKING THE CUSTOMER EXPERIENCE SIMPLER

- Estande: 2409
- exporevestir.com.br/icasa-loucas-sanitarias/2020/

In order to provide more comfort and practicality at the purchase inside the store, ICASA launches the Combos of toilets and close coupled toilets. Each combo features the toilet combined with all necessary items for the installation, such as seats, seal rings, screws, flexible tube, connection tubes and manual. That means the customer doesn't have to worry about the type of seat or correct screw for the installation.

INCEPA EXPLORES SHADES AND MATTE FINISHING

- Estande: 2640/ 2835
- exporevestir.com.br/incepa/2020/
- Foto: Cuba AP Platinun 600 x 415 Preto

The Platinum lines, of sinks, and Boss, of close coupled toilet and seat, are launched in 6 colors: Branco Brilho, Branco Matte, Champagne, Gris, Noir and Rose. Also, the Platinum line was developed with the Titanium® technology, developed by Roca Brasil, that allows the manufacturing of sinks with thin borders, 30% more resistant and 40% lighter than the conventional models. For the metals, the fittings to kitchen and bathrooms are the main attraction. Lines Misano and Trentino, present minimalist and sustainable design.

JAPI: SIGNED TOILET

- Estande: 2803
- exporevestir.com.br/japi/2020/
- Foto: Vaso Gota

The Gota toilet is part of the Japi Studio line, signed by Oswaldo Mellone, one of the most active and known industrial designers of the country, and Mariana Quinelato, Architect and Urbanist. Inspired by the raindrops that, when pouring down, create different designs, like a mosaic, a grid and a sculpture. Besides, the brand is also presenting the Octogonal line, with toilets that turn into furniture, and furniture that turn into toilets. There are three models: coffee table/toilet, footrest/toilet and a high toilet/table.

LORENZETTI LAUNCHING SUSPENDED SINKS AND FAUCET LINE

- Estande: 2444
- exporevestir.com.br/lorenzetti/2020/
- Foto: LS-50 suspenso

With the design inspired by tree leaves, the vessel sink LS-50 stands out for the minimalist design and fluid interior, without straight corners, which avoid splash and dirt build-up. Versatile, it can be used as a suspended sink or vessel sink on top of countertops. The Flatt Rose Gold line comes with faucets for basins with high spout and for kitchen. The rose gold color, a mix of aged pink and copper, harmonizes with different styles and tones. The Loren Code faucet line was extended and the pieces stand out for the straight and curvy lines.

ROCA BETS ON TECHNOLOGY, COLORS AND PIECES FOR THE KITCHEN

- Estande: 2620/ 2825
- exporevestir.com.br/roca/2020/
- Foto: Cuba apoio 800 x 482 com saboneteira F Marques Onix

Following the global trend of Smart Bathrooms, that combines design, high performance, technology and sustainability, the brand presents toilets and toilet seats with electronic technology. The toilets are suspended and the close coupled is hidden behind the brick wall or drywall, granting a clean environment. The portfolio of fittings is being released with matte finishing. The sink and toilet get shades that value the aesthetic of the environment and bring modernity and sophistication to bathrooms and restrooms. For the metals, Roca brings the gourmet fittings of lines Syra, Syra-F and Mencia, with extractable nozzle and Cold Start technology.

SANITRIT RELEASES TOILET WITH EMBEDDED GRINDER

- Estande: 636
- exporevestir.com.br/sanitrir/2020/

Developed in partnership with Panasonic, the Sanismart toilet has the Rimless system, thought out to simplify the cleaning and reducing the water consumption. The toilet is equipped with an embedded grinder that allows its installation even in places with no sewage system. The system pumps the sewage up to 30 meters horizontally through a pipe of only 32mm to reach the main pipe of the house. Expected version with electronic bidet.

THE SILENT SUCTION HOOD BY TRAMONTINA

- Estande: 300
- exporevestir.com.br/tramontina/2020/

The new Dritta Split reduces up to 71% of the noise and it is available in two versions: Dritta 90 Split and Dritta Isla 90 Split. It is the first time that the brand develops suction hoods without the internal engine. Thus, the engine is installed on a distance of up to 6 meters from the body of the suction hood. The engine must be installed in a closed environment. It can't be - yet - be installed on external environments. The suction hoods have maximum power of 845m³ /h, distributed into 4 speeds, being ideal to change the air 12 times per hour on environments of up to 26m².

INSTALLING, FINISHING AND OTHERS

ATENUA SOM: PRIVACY WITH ELEGANCE

- Estande: 1703
- exporevestir.com.br/atenua-som/2020/
- Foto: Janela antirruido PVC

Turning 33 years old, the brand presents releases in windows and doors that deliver performance, elegance and privacy. Among the launches, PVC Doors and Windows and anti-noise, SlidLux Window and the Privacy Glass. The PVC products offer resistance, durability and savings of up to 40% on electrical expenses. The anti-noise doors and windows can be installed from the inside of the place, avoiding conflicts with the facade. SlidLux, all made of glass, allows the interaction between internal and external environments, also providing thermal and acoustic performance. The Privacy Glass delivers privacy with one touch: just press the button to make it transparent or translucent.

ATRIM: BRONZE SQUARE TERMINATION AND LED LIGHTING

- Estande: 1570
- exporevestir.com.br/atrim/2020/
- Foto: Guardacanto Quadra - Bronze

The Bronze Square Termination is a versatile profile that can be used as a divisor on the floor of the same level, to unite different coverings on 90 degrees, to delimit an area or to conclude a step. The Atrim highlights the endings and brings elegance and sophistication to the spaces. Besides, Atrim is also presenting the Lumière Line, which offers a full range of profiles and baseboards for LED lighting to create environments with direct or indirect lighting, indicate areas, highlight surfaces and furnitures.

BOSCH: LASER MEASURING TOOL WITH CAMERA BRINGS PRECISION TO THE PROJECTS

- Estande: 1780
- exporevestir.com.br/bosch/2020

Bosch brings solutions for smart measuring, aiming to facilitate even more the day to day of architects, designers, decorators and engineers, with precision and saving time. One of the highlights is the GLM 120 C laser measuring tool, with integrated camera and wide screen to improve the visualization of long distance measurements, even on external areas with the incidence of solar light. With the app, it is possible to send the data in a fast and easy way, through Bluetooth or USB to the computer, tablet or smartphone.

CREATIVEDRIVE WANTS TO IMPROVE THE CUSTOMER EXPERIENCE

- Estande: 1355
- exporevestir.com.br/creative-drive/2020/

The global creation agency that combines technology and content production to deliver customized solutions to their customers presents their main services: CoverMat and the app los. The app is to simulate on real time and real environment the application of covering using the camera on your phone. The Covering Simulator is an app on web to test different coverings on static 3D scenes.

LINEAR GROUP: NEW COLORS AND METALLIZED

- Estande: 713
- exporevestir.com.br/grupo-linear/2020/
- Foto: Grelha Novii Cobre Rose 100 x 100

The group adds to the mix of drains of its brands over 60 new options of combinations, subdivided into eight lines. From black to gold, the new products also feature the DIY vibe, in which options of grids come to make it easier for the customer to change their spaces, without needing to remodel it.

IDEATEC PRESENTS ITS IDEAFELT – PET LINE

- Estande: 2560
- exporevestir.com.br/ideatec/2020/

Ideafelt - PET offers an excellent acoustic design and the aesthetics that can be coupled to every part or place, respecting the environment, as it is manufactured with recycled polyester.

It can be used as wall or ceiling covering, without an expensive installation and low maintenance. Besides, the polyester covering is available in a good range of colors. Sizes: 1200x 600 mm and 600 x 600 mm.

KAPAZI RELEASES 12 MODELS OF CREATIVE DOORMATS

- Estande: 957
- exporevestir.com.br/kapazi/2020/

There are 12 new models for different personalities. One of the highlights is the Brisa Floresta Line, made for children as a creative and educative launch. Based on the “hopscotch” game, the product brings an interactive content without forgetting the decoration of the environment. Ideal for bedrooms, schools and playrooms. The company also brings the Clean Kaza line, with nine new models; the Tropical and Vinil Light Lines, merging the quality of a doormat to the creative decoration.

THE NEW TOOLS AND MACHINES BY MOLDIMPLAS

- Estande: 433
- exporevestir.com.br/moldimplas/2020/
- Foto: Carrinho de movimentação Dimaestro

Representing, exclusively in Brazil, the brands Montolit (Italy) and Rubi (Spain), Moldimplas brings novelties in its own brands: Nivela Piso and Dimaestro. The manual cutter TZ-1550 (Rubi) allows the easy and fast execution of angular cuts (0° to 45°) and cuts pieces of up to 155 cm. The ceramic manual cutter TX-MAX, also by Rubi, cuts products of up to 125 cm. The manual cutter Masterpiuma (Montolit) is the lighter one among the professional cutters and can cut pieces of thickness between 0-22mm, on a precise and easy way. Besides, the Dimaestro trolley helps on the transport of large format pieces.

PADO RELEASES HIGH SECURITY LOCK

- Estande: 2865
- exporevestir.com.br/pado/2020/

With three chromed steel pins, the box and the lid of the lock have 1,25 mm shielded, which avoid the insertion of objects and the access to the internal mechanisms. The lock is also in compliance with the ABNT in all requirements of maximum security, corrosion and functioning. They are available in seven models of door knobs and varied options of finishings, chromed satin, textured black, textured white, corten and rose. They are mortise locks and can be installed in steel, wood or aluminium doors, with thickness of 35mm or more.

QUARTZOLIT PRESENTS THE INNOVATIVE GROUT RENOVA FÁCIL

- Estande: 845A
- exporevestir.com.br/isover-saint-gobain/2020/
- Foto: Rejunte Renova Fácil

Quartzolit will present to the public the best solutions in laying, grouting, waterproofing, technical solutions, covering for facades and floor tiles. one of the items is the Renova Fácil Quartzolit grout (acrylic based grout to renovate old grout, indicated to overlay old grout of epoxy, acrylic and cement). With innovative design and easy application, the idea is to offer practicality to the public who wants to renovate spaces.

SANTA LUZIA RELEASES SUSTAINABLE SLATTED FLOORS

- Estande: 1238
- exporevestir.com.br/santa-luzia/2020/
- Foto: Ripa 466 e Filete Reserva Cumaru - Coleção Multilinha

As an alternative to the predominant use of natural wood, the slatted floors of the new Multilinha collection collaborate to the correct plastic disposal, as the expanded polystyrene, known as Isopor® or by the abbreviation EPS. Besides, they don't get moldy, don't rotten and won't be attacked by termite. If you can't give up on the wood, the collection also brings slatted floors made of certified pinus wood, with trees grown in farms of Santa Luzia.

WEIKU BRINGS NOVELTIES FOR VISTAMAX, DETEC COLOR AND CORSTONE LINES

- Estande: 701
- exporevestir.com.br/weiku-do-brasil/2020/
- Foto: Linha Corstone

Following the minimalist trend, the Vistamax line of aluminium windows and doors allows the creation of lighted environments, versatile and with high thermal and acoustic performance. Besides, the aluminium windows have high level of resistance, safety and service life. The Detec Color line is formed by three layers of coverings on the frames, allowing the reduction of heat and high performance on the protection of windows. It is also offered in different colors. The Corstone line is composed of laminated glass manufactured with two plates of 4 to 12 mm thick, allowing the customization with images or fabrics, on both sides.
